COMPANY PROFILE

Zhongshan Sanxin Hardware Products Co., Ltd. wasfounded in 2000. We specialize in the manufacturing of high-strength Grade 8.8, 10.9 and 12.9 bolts, weld nuts,press-in fasteners, die castings, high-precision CNC turned parts, and a comprehensive range of standard and custom-shaped fasteners.

Our stainless steel passivated products achieve a 2,000-hour salt spray resistance rating, and our titanium alloy and magnesium alloy product lines serve the requirements of high-end customers. We operate under fully certified management systems — ISO 9001, ISO14001 and IATF 16949 — which run in parallel to support our zero-PPM defect target. We are also recognized and recommended as a qualified fastener supplier by GAC R&D Center.

Our core strength lies in a dedicated, execution-driven team that works together to ensure every fastener wedeliver meets the most demanding quality standards. In product engineering and technology, we collaborate closely with customers from the early R&D stage to accelerate new product development and time-tomarket. Our products are widely used in automotive,low-altitude aerospace, power systems, humanoid robotics, and energy storage applications.

We possess specialized expertise in new energy vehicle(NEV) three-electric systems (battery, motor, and electronic control), intelligent cockpits, lead screws,support rods, torsion bars, and automotive side- and tailgate -lift assemblies. Compared with industry peers,the quality of our products provides a clear competitive advantage.

As a one-stop procurement partner, we offer a comprehensive product range and enjoy widerecognition in the industry. Our manufacturing capabilities and the stability and reliability of our products place us at the forefront of the sector.

"Excellence in manufacturing, integrity in quality —delivering premium products and doing justice to every single fastener" is the shared commitment of every member of the Sanxin team.
